

Solar Tower Light STL 200

Solar Driven for independent use anywhere!

The STL 400 solar driven tower light is perfectly suited for moderate lighting requirements. It is light and easy to transport. Panels can be folded horizontally during transport and storage and still provide a level of charging.

Each trailer is fitted with high quality LED flood lights that are designed to provide the maximum Lumen level for the longest time possible.

LIGHTS

4 x 50W LED Flood Lights
Direct 12V driven light (no inverter)
Total 9000 Lm output (2250 Lm/light)

SOLAR PANELS

Monocrystalline Solar Panel
3 x 255W Panels (510W)
Electromechanically operated

BATTERIES

Deep Cycle Batteries
No Maintenance
2 x 200 Ah BAtteries (400Ah)

CHARGE CONTROLLER

Dual 40amp MPPT Controller

TRAILER

Single axle light framed trailer
2 inch ball coupling
4 Jack Stands

MAST

6 Stage Electromechanical mast
6 Meters (20 Feet) in length

OPTIONAL EXTRAS

Battery monitoring system
Automatic On/Off switch (Timer)
